

## **NOTICE OF PROJECT PLANNING PUBLIC MEETING**

The Village of Kaleva will hold a public meeting on the proposed Water System Improvements Project for the purpose of receiving comments from interested persons.

The meeting will be held at 6:00 p.m. on Monday, May 15<sup>th</sup>, 2023, at the Maple Grove Community Center - 9208 Kauko Street, Kaleva, MI 49645.

The purpose of the proposed project is improvements to the Village's water distribution system, water storage system, and water supply system.

Project construction will involve improvements to the water system. Changes to the water system will include replacement of 18,300 linear feet of watermain, 200 ft of new watermain installation to eliminate two dead ends, 45 additional water service replacements from the R.O.W. to the Structure to address EGLE lead and copper rule compliance, water storage tank improvements, chemical feed improvements at Well No. 3, and security cameras at the well sites and water tank site.

Impacts of the proposed project include minor temporary traffic interruption, increased local noise and dusts levels typically of a construction project. There are no anticipated long-term impacts from this project.

The estimated project costs are totaled to be approximately \$10.43 million. User rates will be adjusted to service the debt and operate and maintain the proposed improvements over time.

The estimated cost increase to users for the proposed project will be discussed at the public meeting and the final costs will be dependent on the terms of the financing proposed by EGLE for this project.
